

Paradise Permaculture Institute Workshop

Paradise Transition Garden, Phase 2

Watering your trees and plants with rainwater and greywater.

Saturday June 4, 2016 • 9am-5pm \$60
Call for Livingston location. Lunch break BYO.

Register or learn more: www.paradisepermaculture.org or 406-222-9999.

A hands-on, fun opportunity to glean many ideas to apply to your own space!

Join us for Phase 2 of a Paradise Transition Garden backyard transformation in Livingston.

- ✓ Learn about holding water on the land to feed what you would like to grow using techniques from permaculture design to conserve city water use.
- ✓ We will have materials on site to:
 - implement safe redirection of greywater from a washing machine to favorite backyard trees or plants
 - create a raingarden (redirecting rainwater from the roof)

As time allows we will freshen up Phase 1 which was started last fall:

- ✓ replenish sheet mulch for planting area
- ✓ plant a few vegetable starts
- ✓ mulch for weed prevention

Interested in learning about Paradise Transition Gardens or our new crowdfunding campaign to build a rolling high tunnel greenhouse for cold-climate growing? Contact Mona at **406-222-9999**.
